## HOSPITAL VISIT REPORT

2023-24

**Venue** : PHC Dodi Khurd  
**Date** : 07/02/2024  
**Duration** : 10:00 AM  
**Students visited** : First Year B. Pharm  
**No. of Students +Staff** : 65+02  
**Accompanying Person:** Mrs. Snehal D. Jadhav,  
Ms. Sheetal B. Gosavi

### OBJECTIVES OF HOSPITAL VISIT:

- As per the syllabus of Savitribai Phule Pune University students of first year should have a hospital visit to enrich their practical knowledge.
- To know the Pharmacy Practices in hospital.

## DETAILS OF HOSPITAL VISIT

According to World Health Organization (WHO), a hospital is defined as an integral part of social and medical organization, the function of which is to provide for the population a complete healthcare, both preventive and curative.

- PRES'S College of pharmacy organized the Hospital visit to **PHC, Dodi . on 07/02/2024.**
- Students departed from PRES's College of Pharmacy at 9:30 am and reached to Hospital at 10:00 am.
- **Primary functioning of different** department of hospital were explained to students in brief by **Mr. Bodke Sir**

Students were divided in groups and lead by various department head.

## Students were asked to observe the following aspects of their curriculum:

**Hospital Overview:** The rural hospital visited serves a population of approximately (Number) people in the surrounding areas. It provides basic medical services, emergency care, and outpatient services, with a dedicated pharmacy department that manages dispensing of medications, inventory maintenance, and patient counseling.

### Observations and Learnings:

#### Pharmacy Operations:

The pharmacy department was well-organized and efficiently managed by a team of pharmacists and pharmacy technicians.

The students observed the dispensing process, medication storage practices, and inventory management techniques followed in a rural healthcare setting.

They learned about the importance of patient counseling, drug information services, and adherence to medication therapy.

#### Pharmacy and Pharmacy storage

Pharmacist explained to students about how to handle prescription, counseling to patients. Students observed the arrangement of medicines. Solid, liquid, parenteral dosage also seen by students. Patil sir explained about the arrangement of all medicine, storage condition, and some government schemes. Some vaccines like anti rabies, sneek venom storage condition dosage. Gave information regarding generic and branded medicines.

## Diagnostic lab

In clinical laboratory consists of pathology, biochemistry & microbiology is well equipped model providing the information related to our body. Lab technician explained the various test performed in hospital which are only done at government hospital in free of cost like cancer test. Different type of tubes is used for the various testing. For collection of blood requires the EDTA containing tube. Students were aware about the importance of diagnosis.

## Counseling Department

Bodke sir gave the information regarding the patient who suffering from AIDS. If AIDS test positive then not report not disclosed to anyone. Report directly given to patient privately. Students were aware about diagnosis of HIV AIDS test.

## Operation Theatre

Nurse explained about the surgery as well as delivery. Explained how to take care of newborn baby after birth. Injection and medicine given to women during labor pain. Medicine kit also placed in OT. Also explained how to dispose the biological waste,

## Maitri Department

This department is especially for the adolescence girls. The specialist aware the girls regarding personal hygiene, menstrual pain and remedies etc.

## Diagnostic & Therapeutic Activity:

It includes the inpatient services involving medical, surgical and other specialties and specific diagnostic procedures. In the Rural hospital, students visited ultrasonography, colour Doppler, Digital X-ray department, etc. X-ray department Student got idea about the importance of X-ray, Scan. Department head explained the various queries, ranges of rays. Criteria and which care should be taken during handling instruments. He gave idea regarding color sonography.

### **Community Outreach:**

The students actively engaged with the hospital staff and local community members to understand their healthcare needs and challenges. They conducted awareness sessions on medication safety, disease prevention, and adherence to treatment regimens. The students also collaborated with the pharmacy department to organize a medication donation drive for underserved patients in the community.

### **Community Outreach:**

The students actively engaged with the hospital staff and local community members to understand their healthcare needs and challenges. They conducted awareness sessions on medication safety, disease prevention, and adherence to treatment regimens. The students also collaborated with the pharmacy department to organize a medication donation drive for underserved patients in the community.

### Conclusion:

The visit to the rural hospital provided the pharmacy students with a valuable learning experience, exposing them to the realities of healthcare delivery in underserved areas. It instilled in them a sense of duty and commitment towards addressing healthcare disparities and working towards improving patient outcomes.

### OBJECTIVES OF HOSPITAL VISIT:

- As per the syllabus of Savitribai Phule Pune University students of first year should have a hospital or blood bank visit to enrich their practical knowledge.
- To know the Pharmacy Practices in hospital.

## DETAILS OF HOSPITAL VISIT

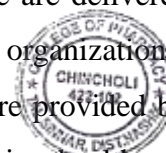

According to World Health Organization (WHO), a hospital is defined as an integral part of social and medical organization, the function of which is to provide for the population a complete healthcare, both preventive and curative.

- PRES'S College of pharmacy organized the Hospital visit to **Pravara Rural Hospital, Loni Bk. on 07/07/2023.**
- Students departed from PRES's College of Pharmacy at 9:00am and reached to Hospital at 11:30 am.
- **Primary functioning of different** department of hospital were explained to students in brief by **Mr. Sachin Vikhe Sir** (junior admin officer).
- Students were divided in two groups and lead by Officer **Mr. Sagar Gadhawe & Mr. Machindra Pawar.**

**Students were asked to observe the following aspects of their curriculum:**

**Healthcare setup:** Healthcare services are the services designed to fulfill health-based needs of people/ community/ population, through various resources available. These are delivered by healthcare system that includes the management of health sector and its organizational structure. Students were explained that majority healthcare services in India are provided by the private sector. The government and the private sector are helping in making healthcare accessible in all areas of India; both rural and urban area.

**The healthcare system in India can be categorized under the following domain:**

- Primary Health center
- Community Health Centers
- Rural Hospital.
- District Hospital
- Health Centers
- Specialty Hospitals
- Universal Health Insurance Programmes
- Private Hospitals, Polyclinics, Nursing Homes and Dispensaries

The hospitals play a major role in maintaining and restoring the health of the community. The main functions of the hospitals can be listed as follows:

- Restorative Functions Under this the students visited different sections to understand the various activities carried out in the hospital:

**Out-Patient Department:** here patients were seen taking a token mentioning the doctor name and room number where patient would be treated or sent referral. Here a chart mentioning the rights of the patients was displayed along with other charts giving information about various health schemes and disease.

**Diagnostic & Therapeutic Activity:** It includes the inpatient services involving medical, surgical and other specialties and specific diagnostic procedures. In the Rural hospital, students visited ultrasonography, colour Doppler, MRI, Digital X-ray department, Pathological lab etc.

**Blood Bank:** It includes much equipment for blood preservation, separation then blood donor room where blood is collected from donor & after donating blood doctor's check patients if donor satisfies the requirement's means no any detection by conducting various test parameters then only preserved.

**Central Clinical Laboratory:** In central clinical laboratory consists of pathology, morbid anatomy cytology, biochemistry & microbiology is well equipped model providing the information related to our body.

**Anatomy lab:** In anatomy labs all the organs of the body parts which is preserved with chemicals in a specific glass box. On that glass box they are given a full description about organs. So with the help of these lab students is aware about the structure of the human body.

### **Preventive Functions**

The Rural hospital also carries out various preventive functions which include the following:

- a. Supervision of normal pregnancies and childbirth
- b. Supervision of normal growth and development of children
- c. Control of communicable diseases
- d. Prevention of prolonged illness
- e. Provision of health education services
- f. Preventive health check-up

Intensive care unit was visited at the last. Here various protocols were displayed to stabilize patients of respiratory problems, seizures and snake bite etc. Biomedical waste management protocols along with coloured bins were placed in every ward.

**No. of Students: 65**

**No. of Staff: 03**

**Outcome of the visit:**

Students could learn about set up of the hospital in private sector. Various healths related protocols were explained. Ward setup for patients was observed and how the nurses were taking details of the patient was also understood. Students could understand various manpower required in the hospital and their roles and responsibilities at various levels. Students understood the process of blood preservation, separation protocol then also understood the structure of body parts lab.

Dated: 12-Jun-2024

### TO WHOMSOEVER IT MAY CONCERN

This is to certify that Ms. Gayatri Ramhari Kunde has successfully completed his internship at SciQuaint Innovations (OPC) Private Limited from 1-Jan-2024 to 5-Jun-2024. During this tenure, he worked diligently and efficiently on the project entitled "Formulation, evaluation & optimization of a hydrogel film of baicalein for wound healing" His dedicated involvement and exceptional professional abilities in various aspects of our laboratory work have significantly contributed to our ongoing research and developments.

We hereby acknowledge and appreciate the hard work and commitment shown by the intern during this period. Their contributions have been invaluable, and the depth of their learning undoubtedly profound.

We wish the bearer every success in their future endeavors.

### TO WHOMSOEVER IT MAY CONCERN

This is to certify that Ms. Shilpa Arun Kale completed the project titled "**Formulation and evaluation of herbal toothpaste using multiple herbal ingredients**" on 05/06/2024. This project was undertaken by Mr. Vishal Landage in the capacity of Toothpaste development, from 01/02/2024 to 05/06/2024.

Throughout the project, Ms. Shilpa Arun Kale demonstrated exceptional skills in formulating new samples and contributed significantly to completing the project deliverables.

We appreciate her dedication and expertise to this project, which was completed satisfactorily.

This certificate is issued as a testament to the professional achievement and contributions of Ms. Shilpa Arun Kale.

Thank you.
