MALNUTRITION SURVEY 2017-18

Primary Objective of the Event:

Surveys to assess dietary intake and nutritional status of the population are essential to monitor ongoing nutrition transition and initiate appropriate interventions. In village, routine reporting of nutritional status by the health and social welfare functionaries is suboptimal. India has therefore invested heavily in periodic surveys to obtain data on nutrition transition. Given its size and variation it is important that at least state level data are available. In view of the known interdistrict variations in the same state and the current emphasis on decentralized district based planning, implementation and monitoring of intervention programmes, efforts are currently under way to collect and report specific data where ever possible.

- Create awareness about nutritional issues and significance of nutrition as an important determinant of health.

WORLD PHARMACIST DAY CELEBRATION-2015

"PHARMACISTS: YOUR PARTNERS IN HEALTH"

About World Pharmacists Day

World Pharmacists Day was adopted by The International Pharmaceutical Federation (FIP) Council at the 2009 World Congress of Pharmacy and Pharmaceutical Sciences in Istanbul, Turkey. September 25 was chosen because it is the date that the FIP came into existence in 1912. The purpose of World Pharmacists Day is to encourage activities that promote and advocate for the role of the pharmacist in improving health in every corner of the world.

About Theme

This year theme "**Pharmacists: your partners in health**" is developed by FIP to stress the confidence and close collaboration that pharmacists have with patients and other health care professionals. It could also be used to emphasise to policy-makers the concept of pharmacists being providers of solutions to governments through their services; a key tactical approach in FIP's vision. The theme covers self-care, but equally relates to all elements of the supply chain, industry, research and hospital. "Partnership, in other words cooperation and collaboration, to ensure that the best possible quality of health care is provided to individuals and the community at large is also a component of FIP's Code of Ethics for Pharmacists and its Model Oath for Pharmacists."
