Section 1: Preamble

1.1 Perspective planning process at glance

To emerge as
one of the most preferred
pharmacy education institute with global
recognition and developing competent and socially
sensitive pharmacists committed to healthcare needs of society

Impart quality education and strngthen healthcare system

Academic Activities

Student Centric
Activities

Faculty Development

Outreach Activities

Infrastructure and facilities

Administrative execution and conveyance

Training and Placement orientation

Management

Teaching Faculty

Staff

Students

To educate students with the fundamental knowledge, problem solving skills, business awareness and confidence required to be confident leaders

To build and nurture an environment, which satisfies work, career opportunities and professional growth for faculty and staff To achieve socio economic transformation of rural India through quality technical education by overall personality development of youth specially women

1.2 Historical background

Humble farmer by birth Late Padmashri Dr. Vitthalrao Vikhe Patil was an institution in himself who pioneered the first co-operative sugar factory in Asia. He considered "Co-operative Movement" as a tool for social, education and economical upliftment of rural masses. With this idea he established "Pravara Education Society" in 1964. To realize the visionary thoughts of "Padmashri" his worthy son Padmabhushan Shri Balasaheb Vikhe Patil, Ex-Union Minister for Heavy Industries and Public Enterprises, has started number of institutes in rural areas in the field of Pharmacy, Engineering, Technology and Medical Sciences. Presently more than 30,000 students are studying in these institutes. Out of which more than 5,000 girls students are residing in hostel with social security and atmosphere conductive for studies.

The society has been awarded as Best Education Society in Maharashtra and also certified by ISO 9001-2000. The institute is thus fortunately blessed by dynamic and pragmatic leadership of Hon'ble Shri. Radhakrishna Vikhe Patil, Opposition Leader, Govt. of Maharashtra, to equip, them with infrastructure and with modern methods of governance. With the acumen of the founders Padmashree Dr. Vitthalrao Vikhe Patil and the able leadership of the Padma bhushan Dr. Balasaheb Vikhe Patil and Chairman Hon. Radhakrishna Vikhe Patil, the College of Pharmacy (For Women), Chincholi, has started in 2006 with a view to meet the demands of rural area as well as to provide professional course for women to meet socio-economic demands with an intake of 60 with Bachelor of Pharmacy (B.Pharm) Programme. Since inception institute have grown and expanded from an under graduate to a post graduate institution and in this effort we have introduced the Master in Pharmacy (M. Pharm) course with specialization in Quality Assurance and Pharmaceutics. Despite located at Chincholi village in the rural area, the college is successful in attracting the urban students also, due to the rigorous and comprehensive academics, discipline, conducive environment and work culture. The college is affiliated to Savitribai Phule Pune University (SPPU), Pune and approved by AICTE, New Delhi, PCI, New Delhi and DTE, Mumbai. The college is an ISO 9001:2015 certified.

1.3 Changing environment

If diagnosis is a crucial aspect of treatment, then medication holds the key to recovery. Pravara trains students to design and formulate better medications for the treatment and aims to produce quality professional pharmacist for global health care.

In short, at every stage, the pharmacist works as a quality assurance manager for upliftment of the health of the society.

The demands of this shrinking world are ever expanding. Today, with the increasing number of life saving drugs and more effective and specific therapeutic remedies, the responsibilities of the pharmacist have increased significantly. It is his prime task now to

educate both the public in general and healthcare professionals in particular about the medication.

The pharmaceutical industry is growing worldwide at the rate of 25% and in India more than 25,000 companies are together contributing Rs. 40,000/- crores worth of sales through medicines. This is expected to grow up to Rs. 50,000/- crores by year 2020. Bulk drugs worth around Rs. 5,000/- crores and formulation worth of Rs. 4,000/- crores are exported from India, indicative of the quality of medicines produced at their peak.

In these days Clinical Pharmacy has evolved as that specialization within pharmacy practice which deals with patient care with emphasis on drug therapy. This concept of clinical pharmacy has gained tremendous acceptance in both hospitals and community pharmacy practice due to its beneficial contribution to patient care and assisting the physician in selecting the appropriate drug products, dosage form and formulation.

1.4 Major Achievement since the inception of the institute:

- Pravara Rural Education Society is awarded by Government of Maharashtra as "Best Education Society"
- ISO certified institute
- Exception result till date having University Toppers.
- Started post graduate course, M. Pharm Quality assurance techniques, since academic year 2012-13 with sanctioned intake of 18. And M Pharma Pharmaceutics in year 2020 with sanctioned intake of 9.
- Active participation in organizing NPW 2015-16 and 2016-17.
- 6 Faculty members received PhD and 8 are registered for PhD.
- One patent published by Dr. V Kashid
- Dr. S.B.Somwanshi received research Excellence award 2020 from Institute of scholars
- Intershala Ranking 2021
- Recognized social entrepreneur ship, swatchata and rural engagement cell institution (SESREC) in the areas of sanitization and hygiene, waste management water management and energy conservation and greenery post covid by Mahatma Gandhi National Council of Rural Education, government of India.

1.5 **SWOC** Analysis

STRENGTH

- College has lush green, pollution free campus with excellent infrastructure
- College is ISO 9001:2015 certified
- Student centric teaching learning integrated with Mentoring and counseling
- ICT enabled classroom
- Transparent and Participative management
- Laboratories are well equipped with sophisticated equipments
- Imparting holistic education
- Library enriched with reference books, textbooks, national and international journals and Periodicals
- Greater than or equal to 50 Mbps dedicated lease line internet connectivity
- Research publications in various national and international journals in last four years.
- College involved in extension and outreach activities
- Excellent academic performance
- Faculty quarters are constructed in the campus which beneficial for faculty to pursue research activities after working hours
- Earn and learn scheme for poor and needy students
- Training and placement cell actively involved in placement of students as well as organizing the industrial visit and training
- Activities under National Service Scheme and College Social Responsibility
- Hostel facility for girl students within the campus with hygienic food facility

WEAKNESS

- Project Funding through agencies and consultancy is not satisfactory
- Industry institution interaction is not up to the mark
- The Faculty needs to shift from basic research to advanced research for obtaining patents
- Lack of Government funding support for self-financed programs such as FDP
- Student participation at National and International level sports
- Less consultancy works

OPPORTUNITIES

- To enhance research and development activities by interacting with industrial experts
- Revenue generation through various funding resources
- To attract students from other state
- To explore the alumni involvement in placement

CHALLENGES

- To collaborate with national and international organizations for academic and research activities in the thrust areas of pharmacy
- To Develop entrepreneurial aptitude in students
- To get the industry funded project
- To overcome the language barrier amongst the students of rural areas.
- To attract core companies for training and recruitment

Section 2: <u>Introduction to</u> Perspective Plan

2.1 VISION

To emerge as the most preferred pharmacy educational institute with global recognition and developing competent and socially sensitive pharmacists committed to healthcare needs of society.

2.2 MISSION

- i. To develop students as global citizen with conscience, commitment and dedication.
- ii. To create world class facilities and ambience for advanced level of teaching, research and practical training.
- iii. To recruit and retain highly motivated and qualified faculty to promote the cause of teaching and learning.

2.3 Goal

- i. To impart quality pharmacy education, through innovations in teaching, learning and research.
- ii. To train the new generation of Pharmacists to strengthen the medicine system for health care of the human society.
- iii. To educate students with the fundamental knowledge, problem solving skills, business awareness and confidence required to be confident leaders in the global environment.
- iv. To develop strong and healthy relations with pharmacy industries, institutes.
- v. To build and nurture an environment, which satisfies work, career opportunities and professional growth for faculty and staff.
- vi. To achieve socio economic transformation of rural India through quality technical education by overall personality development of youth specially women.

Process for defining Vision and Mission

1. Define Your Future State:

Future status of the institute was defined according to the perfect state of being, and considering the purpose of establishment of women institute. The statement of future state is written in the present tense. While designing the statement, following points were considered:

- -Vision of the founder chairman Padm. Dr. Vitthalrao Vikhe Patil.
- -reason for existence of the institute
- -Purpose of the institute

"To impart quality Pharmacy education"

2. Make it Powerfully Memorable:

The vision is typically written as a short sentence or statement, the vision should inspire. It is to the point and easy to remember. It is made memorable as students are made to serve the society through their noble profession.

"Creating socially sensitive pharmacist committed to noble profession of health care."

3. Keep in Synch

Vision statement is connecting pharmacy department and host organization together. The host organization, Pravara Rural Education Society, was established in July, 1964 with twin objectives of providing high class education system comparable to the best in any urban area and to give a fillip to the empowerment of women through need based education. The power of advocacy is magnified ten-fold by saying what we're all about in the same way.

"To create world class facilities and ambiance for advanced level of teaching, research and practical training"

4. Gain Consensus

One of the important things in this process is inclusion. Everybody needs to have a say and feel a sense of quality education. When it's done right, it's *not* a waste of time.

"To gain pharmacy educational institute with global recognition and strengthen the medicine system for healthcare needs of the human society"

5. Make it Achievable

The vision is defined in such a way that it is great and achievable. It also causes the organization to stretch and to bring it within reach.

A great vision should be achievable, but your vision should always be a stretch, but within reach.

"To achieve socio-economic transformation of rural India through quality technical education by overall development of youth specially women"

6. Make it Visible

It's *your* team's vision. Be proud! Make your tagline visible nearly everywhere you go. Put it on giant posters or paint the phrase on the hangar wall or in your lobby. Let your executives, employees and passengers know what you're about. Put it on your notebook binders and your passenger briefing cards. Think of it as branding for your flight department. Translate into an image, a visual your team can relate to. You shouldn't be able to walk through flight department facilities without seeing your vision statement at least a few times.

Example:

Vision and mission statements are

- Displayed at the entrance of the institute.
- Printed on pamphlets for advertisement.
- It is also displayed on institute website.
- Included in news paper advertisements and cable advertisements, hoardings.

7. Align with your Goals

When you set your new annual goals and objectives, you should revisit your vision, mission and values to see if you're on track. Does your vision increase your alignment you with institute and society? Usually the vision changes very little, but the mission might change.

Example:

- Continuous quality improvement
- Recruiting and retaining highly specialized and qualified faculty
- Developing a technically skilled pharmacist

Process for defining Vision and Mission

NOTICE

All students of third year B.Pharmacy are hereby informed to enroll for 'Clinical Research' course. This clinical research training course will provide through understanding of all important and relevant knowledge areas of drug development and clinical research management. The program has been designed in a way so as to compliment your basic education and to provide you a platform to enter the pharmaceutical and biotech industry as a clinical research professional.

Note:

- 1. Minimum 80% attendance is compulsory
- 2. Assessment will be of 50 marks as follows and student should score minimum 25(50%) marks for completion of course
 - I. Viva voce-25M

II. Multiple choice Questions-25M

Clinical Research 2020-2021

Learning Outcomes

- 1.I learner will be able to learn clinical testing of medicines and the translation of Pharmaceutical drugs research in to new medicines also focusing on the need to understand the safety profile of medicines and the benefit risk balance.
- 2.learner will be able to learn therapeutically align attain faster path ways in commercialization, achieve greater efficiencies through better design and executed clinical research studies and effectively navigat global regulatory requirements to optimize your product success.
- 3.Learner will be able to learn that clinical research should be conducted ethically to protect the right, safety and will being of the study participants.
- 4.Learner will be able to learn to demonstrate competency in bio pharmaceutical clinical trial research design and regulatory affairs managements to meet the health and medical needs of current and future biopharmaceutical product consumers.
- 5.Learner will be able to evaluate cotel domestic and global regulatory health case issues that challenge and influence bio pharmaceutical product development.
- 6.Learner will be able to learn to forecast the resources necessary for developing and managing bio pharmaceutical clinical research grants and trials as required and regulated by global regulatory agencies.
- 7.Learner will be able to learn to demonstrate competences in evaluating clinical research data and communicating results.
- 8.Learner will be able to manage innovative biopharmaceutical biotechnology products through the discovery processes and into the clinical trial phases via identifying research questions and testable hypothesis.
- 9.Learner will be able to learn to demonstrate advance clinical linking skills necessary to enhance employment opportunities or advance within the biopharmaceutical industry.
- 10.Learner will be able to learn to effectively communicate and collaborate with health care providers and regulatory agencies to develop culturally divers to domestic and global strategies for biopharmaceutical product approvals.

Brochure for

Certificate Course in

"Handling of Sophisticated Instruments"

2020-21

Course Contents

Module	Content	Duration
1	General Introduction to "Pharma Instruments"	6 Hrs
2	Hands on Training on HPLC	6 Hrs
3	Hands on Training on IR Spectrophotometer	6 Hrs
4	Hands on Training on Dissolution Testing Apparatus	6 Hrs
5	Hands on Training on UV Visible Spectrophometer	6 Hrs
6	Hands on Training on Brookfield Viscometer	6 Hrs

Note-1. Course will be of 36 Hrs.

- 2. Minimum 80 % Attendance is compulsory.
- 3. Assessment will be of 50 marks (multiple choice question for 25 marks & viva voice for 25 marks) & student should score minimum 25 (50%) marks for completion of course..
- 4. No registration fees for our college students.

NOTICE

All students of Final year B.Pharmacy are hereby informed to enroll for 'Handling of Sophisticated Instruments'. This training course will provide through understanding of all important and relevant knowledge areas of manufacturing and quality control of drugs. The program has been designed in a way so as to compliment your basic education and to provide you a platform to enter the pharmaceutical industry as a professional.

Note:

- 1. Minimum 80% attendance is compulsory
- 2. Assessment will be of 50 marks as follows and student should score minimum 25(50%) marks for completion of course
 - I. Viva voce-25M

II. Multiple choice Questions-25M
