### MENTOR GUIDELINES AND CODE OF CONDUCT

Mentoring is not a panacea for all the problems and issues related to personal and professional life of your mentee and his/her family. The essence of mentoring is the sustained human relationship. Your commitment and dedication to your mentee may be the most profound opportunity that you experience. The quality of the relationship you build directly influences the life and future of your mentee.

Please exert every effort to maintain **professional standards**, improve your mentor skills, and exercise good judgment when engaged in any activity involving your mentee.

**As a mentor you are a: POSITIVE ROLE MODEL AND CAREER COUNSELOR.**

Please read carefully, the following guidelines and your roles as a mentor-

1. At the initial stages, your mentee may appear to be hesitant, unresponsive, and unappreciative of the mentor-mentee relationship. This guarded attitude is simply a manifestation of his/her insecurity about the relationship. The mentee's attitude will gradually take a positive turn as he/she realizes your sincerity about being a good guide in terms of mentor.
2. Like any other relation mentor-mentee relationship has an initial phase. During this phase the mentee is more interested in getting to know how "real" you are and how much he/she can trust you. So, give adequate time to buildup the mutual faith and trust.
3. Establish how you can reach your mentee: by phone, e-mail, or at a designated meeting location like class room/ tutorial room (most preferred). As far as possible all meetings should be scheduled in advanced and should be in notice to the HOD/Dean/Principal.
4. **Don't try to be teacher, parent, disciplinarian and psychotherapist during mentor mentee meetings.**
5. Don't criticize or preach. Think of ways to solve the problem together rather than lecturing or telling the mentee what to do. **Never have a negative attitude towards your mentee.**

Chincholi, Sinnar, Nashik-422102.

6. Respect the uniqueness and honor the integrity of your mentee and influence him/her through constructive feedback.
7. **Always explore positive and negative consequences of each and every point/matter/issue.**
8. Be encouraging not demanding. There is a big difference between *encouraging* and *demanding*. Encourage your mentee to complete his/her education and pursue higher learning or professional goals; provide access to varying points of view.
9. Assist your mentee in making the connection between his/her actions of today and the dreams and goals of tomorrow. Don't get discouraged if the mentee isn't turning his/her life around or making great improvements.
10. As a teacher cum guide you can share and advise, but know your limitations. **NEVER BE VERY PERSONAL AND SHARE PERSONAL ISSUES. YOU SHOULD PREFERABLY INTERACT WITH YOUR MENTEES IN A GROUP.**
11. Problems that your mentee may share with you regarding substance abuse, molestation and physical abuse are best handled by professionals. If you have any concerns, contact the higher authorities immediately.
12. Be supportive of the parent, even when you may disagree. Don't take sides or make judgments concerning any family conflict or situation. **Leave the parenting to the parent.**
13. There may be instances when your mentee's behavior is unacceptable. Explain to your mentee why you find his/her behavior unacceptable. Don't forget to inform the parent about the steps you took and why you took them.
14. Never use abusive or unprofessional language.
15. Avoid arguments with your mentees.
16. As far as possible female faculty should be the mentor for female students.
17. Always keep record in support of your all actions of mentor mentee programme.
18. Never use alcohol, tobacco or drugs and share your personal things with your mentee.
19. **Entertainment is not the focal point of your relationship. Do not spend an exorbitant amount of money for activities like birthday presents, parties etc.**
20. Be sure you have parental approval for all activities apart from routine academic activities.
21. If you have a concern you feel is beyond your ability to handle, feel free to contact the higher authorities. Never feel helpless or hopeless.

## 2 Executive Summary – Green Audit

Sr.No	Area	Observations	Remark
1	Tree Plantation and Awareness about Energy Conservation	College has carried out tree plantation activity. Several type of trees has been planted by students and staffs	Good initiative taken by college toward green campus
2	Use of renewable energy – Solar PV system for power generation	Solar PV system of 100 kW has been installed by college to generate the electricity from solar energy. It helps to reduce 15 tons of CO <sub>2</sub> emission annually	Good initiative taken by college towards use of renewable energy
3	Rain Water Harvesting	College has set up water storage facility to store the rain water coming from nearby valleys.  This water is then used for gardening and flushing purpose	This is good imitative by college and commitment towards conservation of water
4	Liquid Waste Management	STP plant is installed to treat the waste water for application like gardening. It saves good amount of fresh water	Good Initiative
5	Solid Waste Management	Biogas plant of is installed in college campus to make the use of canteen waste	Good Initiative
5	E waste Management	At present, E -waste generated by college is sent to their Head office	College shall ensure that e-waste generated by them is channelised through collection centre or dealer of authorised producer or dismantler or recycler
6	Workshop on 'Save Electricity'	Workshop was conducted to aware the student about energy conservation	Good Initiative

## 4 About College

Our institute was started in the year 2006, PRES's, College of Pharmacy, (For Women), has achieved the status of Centre for Excellence within a short span of time. The College is affiliated to Savitribai Phule University, Pune. Empowerment of women through education has been the single minded mission of this college. Today Savitribai Phule University has become a symbol of excellence in higher education opportunity. Since the pledge of the college is to impart excellent education and training to the student, there is a perpetual attempt to attain higher levels of quality. Besides having highly qualified faculty with rich academic and industrial experience, the college has a well-designed infrastructure with spacious and well equipped laboratories, updated and spacious library and a playground.

### 4.1 Mission

- To impart knowledge, develop skills and competencies in students in pharmaceutical sciences.
- To develop and advanced the knowledge, attitude and skills of pharmacist and faculty member who can provide comprehensive health care, outcomes and meet societal needs for safe and effective drugs.
- To develop, promote and nurture research activities in pharmaceutical sciences and translating research into healthcare.

### 4.2 Vision

To be amongst the top five women's pharmacy colleges in India by imparting excellence in pharmaceutical education.

## 5 Energy Audit

An energy audit is an inspection, survey and analysis of energy flows, for energy conservation in a building, process or system to reduce the amount of energy input into the system without negatively affecting the output(s). In commercial and industrial real estate, an energy audit is the first step in identifying opportunities to reduce energy expense and carbon footprints.

### 5.1 Electricity Bill Analysis

At present, one electricity meter is there for all campus. Contract demand is 150 kVA. Bill analysis for the last 12 months below (Consumer number – 075949015560)

Below graphs shows the monthly energy consumption, maximum demand, power factor and bill trend

### Observations

- Monthly average energy consumption is 3755 kVAh
- Monthly average maximum demand is 64 kVA
- Monthly avg. power factor is below 0.869 which is on lower side. Improve the power factor to unity.
- Install APFC panel of 50 kVAR (or capacitors of 50 kVAR to maintain unity PF)
- Monthly average electricity bill is Rs.0.89 Lakh
- Avg. unit rate is 30.96 Rs./kWh

### 5.3 Implemented Energy Saving Projects – LED Lights

College has replaced all conventional 40 watt tube lights with 18 watt LED lights in last year. Total 101 no. of fittings were replaced.

Below is the energy saving achieved due to LED lights

- Total no. of lights replaced = 101 Nos.
- Power Saving = 9.65 kW
- **Monthly Energy Savings = 241 kWh**
- **Monthly Cost Savings = Rs. 3618**
- Investment Required = Rs. 30,300
- **Payback Period = 8.3 Months**

## 5.5 Actual Load Measurement

The power logging is done at the main incomer of the college

The following parameters are logged.

Summary Table for Voltage and Current		
	Voltage (Volt)	Current (Amp)
Min	411	4.1
Average	409	5.2
Max	408	4.7

Summary Tables For kW & Power Factor		
	Power (kW)	Power Factor
Min	2.47	0.847
Average	3.2	0.871
Max	2.7	0.814

### 5.5.1 Observations

- Average and maximum voltage is 409 volts and 411 volts respectively.
- Average and maximum load is 3 kW and 3.2 kW respectively
- Average and minimum power factor recorded is 0.844 and 0.871 respectively during recorded period

### **Fan Recommendation 1**

Replace existing 75 watt conventional ceiling fans with 40 watt energy efficient fans

- Total No. of ceiling fans present = 87Nos.
- Total No. of ceiling fans presently operated=87 Nos.
- Total No. of ceiling fans to be replace= 17 Nos.
- Present Energy Consumption = 631 kWh
- Expected Energy Consumption = 533 kWh
- Total Energy Saved per Month =  $631-533= 98$  kWh
- Total Saving = 98kWh
- Monetary Savings = Rs.986
- Investment = Rs. 29750
- Simple Payback period = 30 Month

## 7 Green Audit

Green audit was initiated with the beginning of 1970s with the motive of inspecting the work conducted within the organizations whose exercises can cause risk to the health of inhabitants and the environment. It exposes the authenticity of the proclamations made by multinational companies, armies and national governments with the concern of health issues as the consequences of environmental pollution. It is the duty of organizations to carry out the Green Audits of their ongoing processes for various reasons such as; to make sure whether they are performing in accordance with relevant rules and regulations, to improve the procedures and ability of materials, to analyze the potential duties and to determine a way which can lower the cost and add to the revenue. Through Green Audit, one gets a direction as how to improve the condition of environment and there are various factors that have determined the growth of carrying out Green Audit. Some of the incidents like Bhopal Gas Tragedy (Bhopal; 1984), Chernobyl Catastrophe (Ukraine; 1986) and Exxon-Valdez Oil Spill (Alaska; 1989) have cautioned the industries that setting corporate strategies for environmental security elements have no meaning until they are implemented.

Green Audit is assigned to the Criteria 7 of NAAC, National Assessment and Accreditation Council which is a self-governing organization of India that declares the institutions as Grade a, Grade B or Grade C according to the scores assigned at the time of accreditation.

The intention of organizing Green Audit is to upgrade the environment condition in and around the institutes, colleges, companies and other organizations. It is carried out with the aid of performing tasks like waste management, energy saving and others to turn into a better environmental friendly institute.

### 7.1 Goals of Green Audit

- The objective of carrying out Green Audit is securing the environment and cut down the threats posed to human health.
- To make sure that rules and regulations are taken care of
- To avoid the interruptions in environment that are more difficult to handle and their correction requires high cost.
- To suggest the best protocols for adding to sustainable development

## **7.2 Benefits of Green Audit**

- It would help to shield the environment
- Recognize the cost saving methods through waste minimizing and managing
- Point out the prevailing and forthcoming complications
- Authenticate conformity with the implemented laws
- Empower the organizations to frame a better environmental performance
- It portrays a good image of a company which helps building better relationships with the group of stakeholders
- Enhance the alertness for environmental guidelines and duties

## 8 Initiatives by College towards Sustainable Environment

### 8.1 Tree Plantation and Awareness about Energy Conservation

Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purpose. It differs from the transplantation of larger trees in arboriculture, and from the lower cost but slower and less reliable distribution of tree seeds.

In silviculture the activity is known as reforestation, or afforestation, depending on whether the area being planted has or has not recently been forested. It involves planting seedlings over an area of land where the forest has been harvested or damaged by fire, disease or human activity. Tree planting is carried out in many different parts of the world, and strategies may differ widely across nations and regions and among individual reforestation companies. Tree planting is grounded in forest science, and if performed properly can result in the successful regeneration of a deforested area. Reforestation is the commercial logging industry's answer to the large-scale destruction of old growth forests, but a planted forest rarely replicates the biodiversity and complexity of a natural forest.

Because trees remove carbon dioxide from the air as they grow, tree planting can be used as agro engineering technique to remove CO<sub>2</sub> from the atmosphere. Desert greening projects are also motivated by improved biodiversity and reclamation of natural water systems, but also improved economy and social welfare due to increased number of jobs in farming and forestry.

College has planted the trees campus area to make it more environments friendly.

Tree plantation was celebrated on 9th. July 2018 at PRES'S College of Pharmacy (for women), Chincholi, and Nashik by the NSS Unit and other students of college of pharmacy Chincholi. Dr.Sunil A Nirmal (Principal), Dr.C.J.Bhangale was chief guest of this program. Our NSS volunteers Miss.Rutuja Nalkar guided the students how to plant the tree. In our college campus, we plant the different tree like Aavala,Jambhul,Kashid,Karanj ,Shisaw ,Acacia and many more plant. Total 100 plants were planted by our Students, Teaching and non -Teaching staff.Prof Dolas R.T, Prof. Mr.V.D.Kunde & Prof.Mrs K.T.Vaditake guided the student about importance of tree plantation and benefit of nature to human being.Staff Prof.Mr.V.A.Kashid

Prof.Mr.K.B.Kotade,Prof.Mr.Sachin.Somvanshi,Prof.Mr.SandipLaware,Mr.R.J.Bhor.&Students from second ,third, final year Pharmacy were actively participated in this event.

## 8.2 Use of Solar PV System for Power Generation

SVIT has installed 100kW solar PV plant to generate the electricity through solar energy. Solar power plant is generating almost 111616 units annually which results in reduction of 90 Tons of CO<sub>2</sub> emission

Following are the some actual images of installed solar PV plant

Below graph shows the annual solar energy generation

### 8.3 Rain Water Harvesting

College of pharmacy (Women) has taken initiative to collect the rain water coming from nearby valley into the water storage tank

This water is then used for gardening and flushing purpose. This is good initiative taken by college towards conservation of water

Following are the some actual site images

#### 8.4 Sewage Treatment Plant

STP has been installed in college campus to treat the used water. Water comes to STP from various washrooms, basins. It is treated in the plant and has been used for gardening purpose.

Following is the actual site image of STP

### 8.5 Biogas Plant

Biogas plant is installed near canteen. It generates the biogas which has been utilized in kitchen for cooking purpose. It saves good amount of LPG required for cooking application.

Below are the actual site images of biogas plant

### 8.6 Seminar on Save Electricity

Workshop on “Save Electricity” was conducted on 15<sup>th</sup> December 2018. The main purpose of the workshop to aware the student about energy conservation awareness

It helps student to understand the various ways of energy saving in day to day life. It result with the remark that “A small change in habits can contribute to energy saving and carbon emission reduction”

Total 25 no. of students were present for the workshop. It was conducted by Mr. Kiran Varade, Asst. Prof. of Electrical Engineering Department of SVIT.

Mr. Kiran Babasaheb Kotade welcomed all the members and initiated the proceedings of the meetings. He informed the members about the unavailability of veterinarian due to some personal reason. Dr. Charushila Bhangale, Chairperson & Biological Scientist gave a brief overview about animal house and college.

Dr. Mrunal Ghag Sawant and other members checked the last minutes of meeting which was held on **14<sup>th</sup> December 2019** and verified progress/changes made according to it. Accordingly following changes were made:

- Pass box for quarantine room and animal housing room was set up as desired.
- Platform in dosing area and anesthesia room was set up.
- Installation of CCTV camera in the animal house was done.

#### **Virtual Visit to Animal House**

The members visited virtually animal house and following suggestions were offered by them:

- AC to be fitted in quarantine area
- Autoclave and desiccators with CO<sub>2</sub> chamber installation in experimental area

The members asked to make the above changes in the layout before next IAEC meeting.

The meeting ended with vote of thanks presented by Member Secretary.
