Description:

PRES's, College of Pharmacy (For Women), Chincholi, Nashik organized two days’ workshop on “Entrepreneurship Development” sponsored by Savitribai Phule Pune University, Pune on 8th & 9th February 2023. Entrepreneurship is a process of identifying and starting a business venture, sourcing and organizing the required resources and taking both the risks and rewards associated with the venture. The objective of this workshop was to motivate students towards entrepreneurship as it can create employment for the future generations. Mr. Sunil Chandak, Entrepreneurs Trainer and Mr. Rajendra P Daga, Pharma Consultant, addressed the students about the concept of entrepreneurship.

Mr. Sunil Chandak, Entrepreneurs Trainer, introduced the concept of entrepreneurship by focusing on myths related to it and the different aspects of entrepreneurship such as entrepreneurs are born not made, entrepreneur fit an ideal profile, all you need is money to be an entrepreneur, all you need is luck to be an entrepreneur and another is that great idea is the only ingredient in a recipe for business. He mentioned that the reason that people do not start their

new ventures in a country like India is due to non-awareness amongst the population of India and decides to go for jobs in private or government sector so as to minimize the risk. Sir explained in detail about the various attributes of successful entrepreneurs such as drive, communication skills and technical skills.

Mr. Rajendra P Daga, Pharma Consultant, with his vast experience of entrepreneurship and leadership in the Pharma industry, guided students about what is entrepreneurship and what are the basic features of an entrepreneur which distinguish him from others. He quoted his own experiences and explained to students the practical aspects of entrepreneurship and answered queries of students. He also explained the risk and difficulties associated with a new venture and the strategies to overcome to become a successful entrepreneur.

Prof. S. N. Bhandari, co-ordinator, Student Welfare Department of SPPU, gave a vote of thanks to the guest speaker and added his own insights about the workshop. The event was a great success; all the faculties and students learnt practical aspects of entrepreneurship through this workshop.

Details:

PRES's, College of Pharmacy (For Women), Chincholi, Nashik organized workshop on “Outcome Based Education and Research Matrices” on 14/02/2023. Prof. (Dr) B. M. Patil, Director Research, PRES's Pharmacy Institution, Pravaranagar was the resource person for the workshop attended by all Faculty members of pharmacy colleges of campus.

In morning session, Dr. Patil emphasized the importance of restructuring our curriculum in such a manner that it improves knowledge along with skill assuring employability to young graduates of any discipline. Outcome based Education is nothing but the outcome of the students i.e. what is the role of the students after completing their Programme. He focused the six parameters of OBE as projected in Blooms Taxonomy. He also highlighted the new regulations and guidelines of NAAC and stressed that any Institution desirous of getting better grading in the next cycle should implement OBE curriculum effectively right now. This workshop has created a great awareness among the faculties on Outcome based education and the need for restructuring the curriculum.

In the afternoon session, He explored the concept and application of Research Matrices in various fields. The workshop aimed to enhance participants' understanding of research matrices, their significance, and how to effectively use them in different research endeavors. The workshop began with an overview of research matrices, explaining their role as valuable tools for organizing, categorizing, and visualizing data, ideas, and research concepts. Attendees gained a fundamental understanding of why research matrices are

essential in various academic disciplines and industries. The Workshop on Research Matrices provided a comprehensive exploration of the concept, types, and practical applications of research matrices. Attendees left with a deeper understanding of how research matrices can enhance their research processes, improve data organization, and facilitate more efficient decision-making.

Objective of the event	To aware the student about the importance of Intellectual Property Rights in future.
Outcome of the event	The student understood the concept of need of patent in pharma field and the process required for it.

Details of the Event

Every year, 26th April is celebrated as World Intellectual Property Day. World IP Day is a great opportunity to celebrate the power of innovation and creativity and to explore how intellectual property (IP) supports our drive to build a better future. This year, the theme for World Intellectual Property Day celebration was “Women and IP: Accelerating Innovation and Creativity”.

With the above theme, the PRES's, College of Pharmacy (For Women), Chincholi, Nashik celebrated IP Day with a talk by Dr. Umakant Dinkar Butkar. Dr. Charushila J. Bhangale, Principal, delivered the welcome address and introduced the theme to the gathering.

The purpose of this workshop that took place on 26th April, 2023 was not only to raise awareness on the issues of Intellectual Property and their violations to identify educational and social strategies to address the issue as well as to collect, share and develop innovative

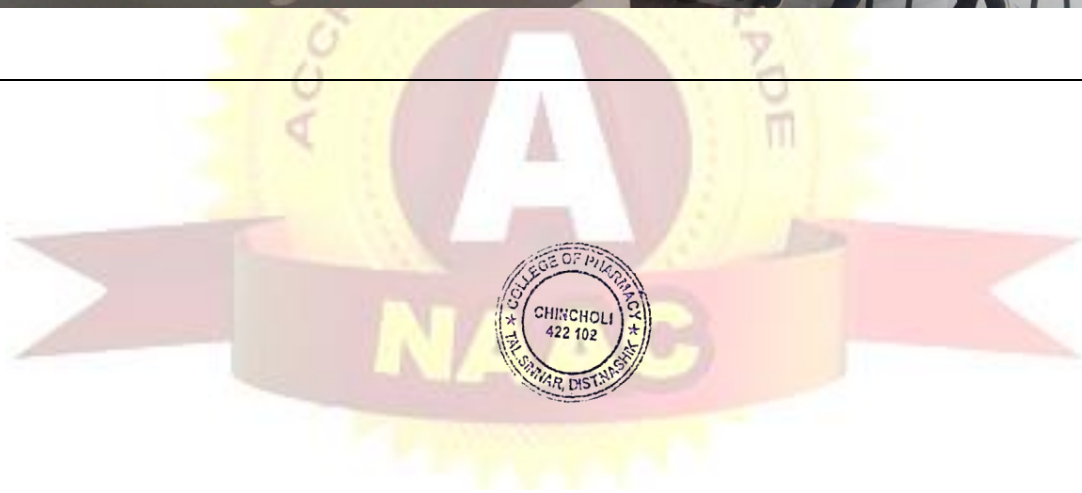

responses and best practices for elimination and prevention of violation of intellectual property rights.

Resource person, Dr. Umakant Butkar gave very important insights over the technicalities of IPR, Patent law and its future perspectives. With the developing technology there are increasing challenges in IPR sector which makes this sector of law more lucrative as a career opportunity. Further there was deliberation upon various important technicalities of the IPR law. He gave a very insightful thought by touching on various aspects of different types of intellectual property. He focused on giving in-depth presentation on the types, process of registration and the infringements of various types of IP.

The programme concluded with the vote of thanks by Dr. Sachin B. Somwanshi. The program was coordinated by the members of IQAC, Research and Development Cell and Institution's Innovation Council.

ABOUT APTI

ASSOCIATION OF PHARMACEUTICAL TEACHERS OF INDIA

An association founded by the pioneers of Pharmacy education in India in 1966 by leading personalities like Prof. M. L. Schroff, Prof. G. P. Srivastava and others, has come a long way in creating better intercommunication and promotion of excellence in pharmacy education. Through its tailor-made mission and objectives, the association has provided a single platform in bringing together teachers of pharmacy education from all over the country. This has helped in the achievement of excellent standards and to develop new technological methods in pharmacy education through the exchange of views amongst the teaching members.

APTI National Body- **Dr. Milind Janrao Umekar**- President, **Dr. Mihir Kumar Kar** - Vice President Eastern Region, **Dr. Sohan Satyanarayan Chitlange** - Vice President Western Region, **Dr. Deependra Singh** - Vice President Central Region, **Dr. Rohit Dutt** - Vice President Northern Region, **Dr. Muttavarapu Venkata Ramana** - Vice President Southern Region, **Dr. Raman Dang** - Secretary, **Dr. Anil Pethe** - Associate Secretary, **Dr. Raj Shekharan** - Executive Secretary, **Dr. V. ABOUT INSTITUTES

Pravara Rural Education Society (PRES) was set up to utilize education for nation building, integrated rural development and women empowerment. Creating versatile and socially responsible professional leaders for holistic and sustainable development is the cornerstone of our belief system. PRES' commitment to excellence has won numerous awards and accolades even as alumni adds feathers to our proud cap. Debt, starvation and inflation had ravaged farmers around Loni in the slowdown following the Second World War. The tough times got a tough man going. Convinced of the power of unity, Padmashri Dr. Vitthalrao Vikhe Patil braved innumerable obstacles to establish Asia's first cooperative sugar factory in 1950. From humble beginnings - the Pravara Public School started with 27 students and a handful of teachers in 1964 - PRES has expanded into 102 institutes spread across Loni, Sinnar, and Ahmednagar. A 2,500+ strong faculty nurtures over 42,000 students, the next generation of the country from KG to PG to Ph.D.

ABOUT THE CONFERENCE

Artificial Intelligence promises vast opportunities for economic and societal benefits in the pharmaceutical industry, life-sciences and healthcare including care delivery with digital health. As data applications supported by AI become more advanced, the whole healthcare value chain has been affected. New forms of drug discoveries and pharma workforces are going to evolve. At the same time, the collection of real-world evidence using AI platforms will alter the role of patients. Among these new technologies, it is important to follow up the developments and discoveries effecting pharmaceutical industry. This conference provides a comprehensive view of the role that Artificial Intelligence plays, the key challenges and opportunities, as well as the strategic perspective on industry change. In times of disruptive innovation, success is based on a company's ability to adapt, innovate and collaborate. This event therefore serves as a platform that fosters industry relationships, providing the opportunity for the development of innovative business solutions. We invite you to discuss and debate these challenges in a dialogue amongst top professionals in pharma and Artificial Intelligence.

EMINENT SPEAKERS FOR CONFERENCE

- **Dr. Milind Umekar** •
President, Association of Pharmacy Teachers of India (Bengaluru)
- **Dr. Pukar Khanal** •
Department of Pharmacology and Chemical Biology,
Wayne Rollins Research Center, Emory University (Dowman)
- **Dr. Nagaraj Kulkarni** •
Chief Scientist, Sravathi AI Technology Pvt. Ltd. (Bengaluru)
- **Dr. Y. Shridhar Reddy** •
Global Head, Clinical Development & Medical Affairs, Hetero Ltd. (Hydrabad)
- **Dr. Vivekumar Redasni** •
Director, YSPMS Yashoda Technical Campus (Satara)
- **Dr. Aboli Girme** •
Senior Manager, Research and Innovation Pharamanza Herbal Pvt.Ltd. (Anand)
- **Dr. Sujeet D Aher** •
Associate Director, Product Safety Lead, Novartis Healthcare (Hyderabad)
- **Dr. Rahul Mandlik** •
General Manager, Medical Affairs, Shalina Healthcare (Dubai)
- **Dr. B. M. Patil** •
Director Research, PRES's Pharmacy Institution (Pravaranagar)

Registration Details :

Participation to conference is open for all teachers, students, research scholars and officers- scientist from government agencies and pharmaceutical industry.

Registration Fees :

For Industry person/ academician - **Rs. 600/** For Students - **Rs 350/-**
Limited Spot registrations available – **Rs 100/-** extra charge will be applicable for Spot Registration

Last Date of Registration : 18th April 2023

CALL FOR ABSTRACT

The scientific committee has great pleasure in inviting you to submit findings of your work- Original contribution based on practice, theoretical and empirical Research/ Reviews for Poster/ Oral presentation. All abstracts will go through a process of review by panel of experts and accepted abstracts will be published in the conference souvenir book with ISBN

SUBMISSION GUIDELINES

- The Abstract Must Be Submitted online on or Before 18th April 2023 At abstract.pravara@gmail.com
- Title - (12 Font Size, Times New Roman, Normal, Bold)
- Authors - (12 Font Size, Times New Roman, Normal, Bold)
 - Abstract : In 250 Words
 - Key Words- 3-5 Keywords For Indexing Purpose
- Poster Specification: The Size of Poster Should Be 1m X 1m

FOR ABSTRACT SUBMISSION

Report

Name of the event	National Conference on “Applications of Artificial Intelligence in Pharmaceutical Industry and drug discovery” in association with APTI in collaboration with Pravara Rural Education Society's, Pravara Group of Pharmacy Institutions
Date of the event	23 rd & 24 th April 2023
Name of the coordinator	Dr. Kiran B. Kotade
Class of the Participants	B. Pharmacy & M. Pharmacy
Number of Participants	159
Objective of the event	To create awareness on the education front and skill set required being the best fit professionally for clinical research and associated domains of clinical industry.
Outcome of the event	Students got aware about different aspects of clinical research, pharmacovigilance and associated domains.

Details:

Pravara Rural Education Society's, College of Pharmacy (For Women), Chincholi, Nashik has organized national level conference cum research competition on “Applications of Artificial Intelligence in Pharmaceutical Industry and drug discovery” in association with APTI in collaboration with Pravara Rural Education Society's, Pravara Group of Pharmacy Institutions on 23rd & 24th April 2023. The National Conference on Applications of Artificial Intelligence in Pharmaceutical Industry and Drug Discovery was a significant event that brought together experts, researchers, and professionals from both the pharmaceutical and artificial intelligence (AI) domains. The conference aimed to explore and discuss the latest advancements, challenges, and potential applications of AI in various aspects of the pharmaceutical industry, particularly in drug discovery. A poster and oral presentation competition on the above theme was also organized under all categories. Approximately more than 650 students from all over the India presented their research work in conference. The selected papers were published in SOUVENIR – 2023 with ISBN number 978-81-947143-2-3.

Distinguished speakers delivered keynote addresses on the intersection of AI and pharmaceuticals. They highlighted the transformative potential of AI in accelerating drug

discovery, optimizing clinical trials, and personalizing patient care.

AI in Drug Discovery: Presentations and discussions centered on how AI is revolutionizing the drug discovery process. Topics included virtual screening of compounds, predictive modeling of drug interactions, and the use of AI-driven algorithms to identify potential drug candidates.

Machine Learning in Pharmacology: Researchers presented case studies on employing machine learning algorithms to predict drug-target interactions, analyze complex biological data, and model drug toxicity, thereby expediting decision-making and reducing experimental costs.

Precision Medicine: The role of AI in advancing precision medicine was extensively discussed. Speakers showcased how AI algorithms analyze patient data to identify optimal treatment strategies, predict disease progression, and recommend personalized therapies.

Natural Language Processing (NLP) in Pharma: Talks on NLP's application in pharmaceutical research covered text mining of scientific literature, extraction of structured information from unstructured data, and the automation of literature review processes.

Ethical and Regulatory Considerations: The ethical implications of using AI in pharmaceuticals were deliberated, focusing on data privacy, transparency of algorithms, and regulatory compliance. Discussions aimed to establish a framework for responsible AI integration.

Collaboration and Industry Insights: Representatives from pharmaceutical companies shared insights on their collaborative efforts with AI-driven startups and research institutions. These partnerships are shaping the development of innovative tools and strategies for drug discovery.

The National Conference on Applications of Artificial Intelligence in Pharmaceutical Industry and Drug Discovery provided a comprehensive platform for participants to exchange knowledge, insights, and experiences at the crossroads of AI and pharmaceuticals. The event underscored AI's potential to reshape drug discovery, enhance patient outcomes, and drive the industry towards a more efficient and personalized future.

Description:

PRES's, College of Pharmacy (For Women), Chincholi, Nashik established Incubation Centre in its campus with the support of VIOSA Organization & SPPU on 15th May 2023.

This was followed by Inaugural ceremony of Incubation Centre with the Chief Guests and Management team of Pravara Technical Education Campus, Nashik. Later Mr Ashish Sardesai (CEO-VIOSA) addressed the audience and shared some examples of innovations from women entrepreneurs in the country. He shared some interesting anecdotes from his entrepreneurial days and urged the student community to express their ideas and pursue their entrepreneurial dreams.

Mr. Milind Patil, Adviser and Industry Expert of VIOSA guided the students about Entrepreneurship and Role of Incubation Center in college. He briefed the purpose and mandate of the Women Entrepreneurship Platform. He also gave several examples and case studies of how the scheme had benefited women entrepreneurs in the country. The program was coordinated by the members of IQAC, Research and Development Cell and Institution's Innovation Council.
