## HOSPITAL VISIT REPORT

2022-23

**Venue** : Pravara Rural Hospital, Loni

**Date** : 07/07/2023

**Duration** : 10:00 AM

**Students visited** : First Year B. Pharm

**Accompanying Person:** Mr. Mayur T. Gaikar

Mrs. Snehal D. Jadhav

Ms. Shital B. Gosavi

### OBJECTIVES OF HOSPITAL VISIT:

- As per the syllabus of Savitribai Phule Pune University students of first year should have a hospital or blood bank visit to enrich their practical knowledge.
- To know the Pharmacy Practices in hospital.

## DETAILS OF HOSPITAL VISIT

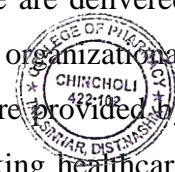

According to World Health Organization (WHO), a hospital is defined as an integral part of social and medical organization, the function of which is to provide for the population a complete healthcare, both preventive and curative.

- PRES'S College of pharmacy organized the Hospital visit to **Pravara Rural Hospital, Loni Bk. on 07/07/2023.**
- Students departed from PRES's College of Pharmacy at 9:00am and reached to Hospital at 11:30 am.
- **Primary functioning of different** department of hospital were explained to students in brief by **Mr. Sachin Vikhe Sir** (junior admin officer).
- Students were divided in two groups and lead by Officer **Mr. Sagar Gadhawe & Mr. Machindra Pawar.**

**Students were asked to observe the following aspects of their curriculum:**

**Healthcare setup:** Healthcare services are the services designed to fulfill health-based needs of people/ community/ population, through various resources available. These are delivered by healthcare system that includes the management of health sector and its organizational structure. Students were explained that majority healthcare services in India are provided by the private sector. The government and the private sector are helping in making healthcare accessible in all areas of India; both rural and urban area.

**The healthcare system in India can be categorized under the following domain:**

- Primary Health center
- Community Health Centers
- Rural Hospital.
- District Hospital
- Health Centers
- Specialty Hospitals
- Universal Health Insurance Programmes
- Private Hospitals, Polyclinics, Nursing Homes and Dispensaries

The hospitals play a major role in maintaining and restoring the health of the community. The main functions of the hospitals can be listed as follows:

- Restorative Functions Under this the students visited different sections to understand the various activities carried out in the hospital:

**Out-Patient Department:** here patients were seen taking a token mentioning the doctor name and room number where patient would be treated or sent referral. Here a chart mentioning the rights of the patients was displayed along with other charts giving information about various health schemes and disease.

**Diagnostic & Therapeutic Activity:** It includes the inpatient services involving medical, surgical and other specialties and specific diagnostic procedures. In the Rural hospital, students visited ultrasonography, colour Doppler, MRI, Digital X-ray department, Pathological lab etc.

**Blood Bank:** It includes much equipment for blood preservation, separation then blood donor room where blood is collected from donor & after donating blood doctor's check patients if donor satisfies the requirement's means no any detection by conducting various test parameters then only preserved.

**Central Clinical Laboratory:** In central clinical laboratory consists of pathology, morbid anatomy cytology, biochemistry & microbiology is well equipped model providing the information related to our body.

**Anatomy lab:** In anatomy labs all the organs of the body parts which is preserved with chemicals in a specific glass box. On that glass box they are given a full description about organs. So with the help of these lab students is aware about the structure of the human body.

### Preventive Functions

The Rural hospital also carries out various preventive functions which include the following:

- a. Supervision of normal pregnancies and childbirth
- b. Supervision of normal growth and development of children
- c. Control of communicable diseases
- d. Prevention of prolonged illness
- e. Provision of health education services
- f. Preventive health check-up

Intensive care unit was visited at the last. Here various protocols were displayed to stabilize patients of respiratory problems, seizures and snake bite etc. Biomedical waste management protocols along with coloured bins were placed in every ward.

**No. of Students: 65**

**No. of Staff: 03**

**Outcome of the visit:**

Students could learn about set up of the hospital in private sector. Various healths related protocols were explained. Ward setup for patients was observed and how the nurses were taking details of the patient was also understood. Students could understand various manpower required in the hospital and their roles and responsibilities at various levels. Students understood the process of blood preservation, separation protocol then also understood the structure of body parts lab.

**REPORT ON  
INDUSTRIAL VISIT  
AT  
SAHYADRI FARMS,  
Village Mohadi, Nashik**

**Class visited:** First Year B. Pharm

**Date:** 08/09/2022

**Name of the teachers visited:** Ms. Kiran Kudale  
Mrs. Neha Kadbane

**Organized by:** Mr. Vikas Kundo,  
TPC Coordinator,  
TPC Department, COP Chincholi

### **Primary Aim and Objective of the Visit:**

- As a part of academic curriculum, students of Third year B. Pharm have schedule of industrial visit to pharmaceutical production facilities to upgrade their knowledge of pharmacy.
- To fulfill and to reduce the gap between the academic knowledge and practical aspects of the syllabi.
- To have industrial visits of students to overview the pharmaceutical processes and equipment.
- To have a interaction with managerial staff to impart the training to students.

### **Details of the Event:**

The visit was started by meeting with the training coordinator of the company Mr. Protish Kare and Co-Director, Mrs. Vilas Shinde madam. Mr. Pritish Kare has given the presentation of their company, explained the aims and objectives and then we proceeded for the visit.

### **Company Profile**

Sahyadri Farms is a group of farmers that grow fruits & vegetables on less than 1 Hectare of land for you. Sahyadri Farms is smaller than the smallest farmers and hence are called the 'Marginal Farmers' of India. Many such like us across India together account for 63% of the total farmer population.

Sahyadri Farms is a collective group of farmers aka 'Farmer-Producer Company (FPC)' here's a little recap from where Sahyadri Farms started:

#### **Year 2000: Faced many challenges**

#### **Year 2003-04:**

Alone, Sahyadri Farms could do so little and so 10 of them got together to overcome the challenges Sahyadri Farms faced and hopefully change this situation for our farming fraternity someday.

2003 is the year when Sahyadri Farms became 'farmers-entrepreneurs' from just marginal farmers. Sahyadri Farms started setting up the necessary infrastructure for the next 1 year which included a privately held company, APEDA approved infrastructure which would be capable to export our produce.

In 2004 Sahyadri Farms got their first direct order and Sahyadri Farms shipped 4 containers of fresh grapes to the European market.

#### **Year 2006-10:**

In these 4 years Sahyadri Farms grew in strength - a greater number of farmers joined us and Sahyadri Farms were 140+ marginal farmers now working together to bring the change.

Sahyadri Farms were now shipping our produce across the globe to leading super-markets grossing 150 containers of fresh grapes alone.

**Year 2011-13:**

2011 is the milestone year for us - Sahyadri Farms branded themselves "Sahyadri Farms" - a Farmer Producer Company (FPC) - by the farmers, of the farmers and for the farmers...! Sahyadri Farms graduated from 'farmer-entrepreneurs' to a full-fledged 'farmer company' now and overcame most of our challenges.

Sahyadri Farms setup their own infrastructure, agro advisory team, a world class pack-house, cold storage facility and minimized post-harvest losses. Our group of farmers jumped almost 4 times from 2010 and touched 550 by 2013.

**Year 2014:**

Sahyadri Farms were now a 'Fort Knox' as Sahyadri Farms crossing 1007 marginal farmers as part of our group and this year Sahyadri Farms become India's leading exporters of fresh grapes.

Sahyadri Farms shipped 625 containers of great tasting fresh grapes that is 9000MT valued at US\$ 17 million.

This is what the progression looks like from 2004 to 2014:

**CHAIRMAN**

Mr. Vilas Shinde, Chairman, Sahyadri Farms (B.Tech agree, Rahuri Krishi Vidyapeeth)

The seeding of "SFPCL-Sahyadri farms" happened in Nashik in 2011 with the simple intention of ensuring a fair return to the farmers and with the quality produces reaching to the end users. Sahyadri was a movement, to uplift the farmers and to get them their righteous due. Organizations talk about CSR as one of their activities but we at Sahyadri converted the entire organization as CSR and it became a movement!!!

The idea behind the entire movement was to buy all the F&V produce offered by them under the food safety standards. The primary objective was to provide the best of infrastructure and

adequate production and processing facilities to the farmers who could not secure a good produce due to frugality of resource and operations.

The movement was to develop first of its kinds branded traceable product-mix that would promote sustained growth and that we could cater with the best to the Indian Consumers too, by offering them quality products at fair prices, and to do so by achieving economies of scale and costs. This movement was driven on Farmer producer model that would play an ever-increasing role in the rural economy, providing gainful employment to large numbers of farmers and allied.

A structure, owned by farmers that would, with time, be the farmers "best friend" ... And the intention was that the highest levels of consumer confidence would be reposed in the brand called Sahyadri...by 'Seeding Goodness'.

#### **VISION**

To be a leading Farmer Producer Company (FPC) with the power to bridge the gap between the rural and urban communities;

- By making farming a profitable & sustainable business for all our farmers and
- By providing safe, healthy, affordable - farm produce and value-added products to our consumers

Whilst caring for the environment, empowering our stakeholders and strengthening the economy.

#### **MISSION**

Sahyadri Farms is a trusted, value driven and professionally managed Farmer Producer Company (FPC) of the farmers, by the farmers, for the farmers.

1. Sahyadri Farms aims to make farming profitable and sustainable by;
  - Assuring the best possible realization for all farm produce under all circumstances,
  - Optimal utilization of available resources, as well as reducing overall costs at the farm level and also throughout the value chain,
  - Effective financial and risk management,
  - Mentoring the farmers to increase quality and productivity as per global standards using enhanced technology,
  - Effective Post Harvest Management.
2. Developing a robust supply chain, which promises traceable, safe, healthy, and affordable - farm produce and value-added products, from farm to plate.
3. Building respectable relationships with the environment, employees and all other stakeholders.

## VALUES

- Happiness
- Ethics
- Transparency
- Diversity
- Knowledge driven

### Product Portfolio

Following fruit processing takes place at Sahyadri Farms

### FRESH FRUITS

### ASEPTIC PULPS/PUREES & CONCENTRATES

Aseptic fruit processing is a method by which product is kept sterile and is packed in sterile drums/containers to maintain the sterility. During the process with the flash heating process the sterility is adequately maintained which allows the product to maintain a longer shelf life without any preservatives till the opening of the aseptic bags.

### FROZEN FRUIT PULPS/PUREES

Plate freezers are used for freezing fruit pulps/purees like Mango, Guava, Papaya etc. Pulp is made with state of art pulp processing line and then packed in unit packs using FPS machines. The product is loaded into the station in trays, the freezing plates then closed hydraulically, thus ensuring double contact, both on the top and bottom of the product. A rapid, efficient and even freeze is thus achieved using advance designed Plate freezer imported from TempTech Thailand.

### **IQF (FRUITS & VEGETABLES)**

The individual quick frozen (IQF) process perhaps the only method where by all the natural parameters of the Fruits & Vegetables can be preserved. The most important feature of this process is the ultra-rapid freezing to a very low temperature (-30 degree C to -40 Degree C), designed to arrest the activities of micro-organisms that may cause the decay and deterioration of a particular fruit or Vegetable. Such process also gives a much longer shelf life of say 24 months keeping instance of colour, flavour, texture of the product.

At Sahyadri Farmers Producer Co. Ltd, are determined and committed to deliver the Quality, Safe & Traceable Products as per the National and International Standards requirement.

**Sahyadri Farmers Producer Co. Ltd.**

### **✓ QUALITY & FOOD SAFETY POLICY**

We at Sahyadri Farmers Producer Co. Ltd, Mohadi are determined and committed to deliver the Quality, Safe & Traceable Products as per the National and International Standards requirement.

To meet our commitment, we ensure

- To comply statutory, regulatory and mutually agreed requirements of the customer.
- To procure excellent quality raw material and process & pack it in hygienic conditions with advance technology.
- Controlling the food safety hazards at the supplier level by approving the Supplier and checking the incoming raw and packaging material before use at factory.
- Efficient utilization of all the resources.
- Meeting customer expectations of required standards of the product in time and at a competitive price.
- Effective Internal and External Communication.
- To review and communicate our Quality and Food Safety Policy to all levels of organization.

Continuous monitoring of the product & service quality and continual improvement are the integral part of our Food Safety Standards to gain and retain the trust of the customers, suppliers and employees.

# REPORT ON INDUSTRIAL VISIT AT

## SCI-TECH LABORATORIES PVT. LTD.

- Laboratory Address

Sinnar Taluka Industrial Co-Operative Estate (STICE), Musalgaon Industrial Area, Sinnar,  
District Nashik – 422112.

**Class visited:** Second year B. Pharm

**Date:** 02/09/2022

**Name of the teachers visited:** Ms. Rutuja Pagare  
Mrs. Tejashree Mulay  
Ms. Bushra Sayyed

**Organized by:** Mr. Vikas Kunde,  
TPC Coordinator,  
TPC Department, COP Chincholi

### Primary Aim and Objective of the Visit:

- As a part of academic curriculum, students of B. Pharm have schedule of industrial visit to pharmaceutical production facilities to upgrade their knowledge of pharmacy.
- To fulfill and to reduce the gap between the academic knowledge and practical aspects of the syllabi.
- To have industrial visits of students to overview the pharmaceutical processes and equipment.
- To have an interaction with managerial staff to impart the training to students.

### Details of the Event:

The visit was started by meeting with the directors of the company

We greeted them by giving them a bouquet. ----- have welcomed us and our institute students. They have given the presentation of their company and then we proceed for the visit in groups.

### Company Profile

Scitech Laboratories Pvt. Ltd., is initiated by the technocrats, dedicated for manufacturing herbal & cosmetic products and particle size reduction facilities Since 1986.

**Phase 1.** Scitech Laboratories Pvt. Ltd. currently manufacture herbal & cosmetic creams, ointments, gels and capsules. Scitech Laboratories Pvt. Ltd. has commissioned Micronisation facilities (GMP)

The unit is dedicated for the certified by FDA for GMP guidelines compliance. The manufacturing capacities on single shift basis are as follows:

Sr. No.	Dosage Forms	Annual Capacity
1	Cream / Ointment / Gel / Balm Manufacturing	170,000 kg.
2	Tube Filling	6 Million Tubes
3	Jar Filling	4 Million Jars
4	Inhalers	1.2 Million
5	Hard Gelatin Capsules	36 Million
6	Micronisation	1,50,000 Kg

**Phase 2.** Scitech Laboratories Pvt. Ltd. shall be expanding its Micronisation Capacity, and add Veterinary / Animal and Poultry nutritional supplements for the period commencing April 2017. Further Scitech Laboratories Pvt. Ltd. shall be enhancing its Regulatory Compliance Qualification Program to add following accreditation:

ISO 9001- 2015, OHSAS 18001, ISO 14001, ISO 22716, USFDA, FSSAI, WHO, BRC, AYUSH, FSSAI, / (Zero Effect Zero Defect)

#### Location

The unit is located at Sinnar Taluka Industrial Co-Operative Estate (STICE), Mursalgaoon Industrial Area, Sinnar, District Nashik - 422112. It is about 45 minutes' drive from Nashik city on Nashik-Shirdi road, 205 Km from Mumbai.

#### Surroundings of the unit

The unit is situated in an independent Plot. Thus, the unit is free from any polluting environmental condition like: Objectionable odor, Air, earth and water pollutant, Filth Sanitation hazards

The unit is fenced with concrete wall from all sides with adequate security arrangements. This permits controlled personnel access to the unit including production and warehouse.
